

Making an eco-friendly environment

How to
reduce waste
production??

We can make
eco-friendly products
like dyes, decorative
items, etc., using
vegetable wastes

We can buy and
sell eco-friendly
products through
eco kart website

Slack channel is
used to learn
tutorials and plant
saplings. It is
connected with eco
kart using app
connect

By adopting
these methods,
we can
achieve a
sustainable
future.

THE PROCESS OF GOING Paperless
